

AMCIS Network™ Achieves Certification by ONC **March 10th 2011**

MD Web Solutions is proud to announce that it has achieved certification as a complete ambulatory EMR which meets 100% of the criteria as set down by the Office of the National Coordinator for Health IT (ONC).

The Certified HIT Product List (CHPL) provides the authoritative, comprehensive listing of Complete EHRs and EHR Modules that have been tested and certified under the Temporary Certification Program maintained by ONC. Each Complete EHR and EHR Module listed on the website has been certified by an ONC-Authorized Testing and Certification Body (ONC-ATCB) and reported to ONC. Only the product versions that are included on the CHPL are certified under the ONC Temporary Certification Program.

Our certification and if you are an AMCIS Network Member, your CMS EHR Certification ID, can now be obtained by visiting the following link;

MD Web Solutions founding partner, Dr. Cyril Spiro, reported,

“This is a great achievement for MD Web Solutions and today is an important milestone as the company continues to grow. This will now allow providers to adopt a leading EMR system in their practice, customized to their specific specialty, needs and workflow while at the same time being 100% compliant with ONC criteria allowing them to gain the full benefits under the Federal Stimulus Bill.”

More information on our certification and what it means to you can be accessed by emailing MD Web Solutions at info@mdwebsolutions.net
